

Tableau Practice Test

8%

In Tableau, what is a story point?

- ☐ A) A collection of dashboards
- ☐ B) A single worksheet or dashboard
- ☐ C) A collection of worksheets
- ☒ D) A collection of both worksheets and dashboards

Wrong!

Explanation:

A story is a sheet, the procedures for creating, naming, and managing worksheets and dashboards also apply to stories. A story is both a sequence of sheets and a collection of sheets. A story point refers to each individual sheet in the story.
